# Hamza Kamran

Bachelor of Business Administration in Finance | Bachelor of Science in Managerial Economics | Isenberg School of Management | University of Massachusetts Amherst  
Amherst, Massachusetts, United States

## Summary

As a senior at the Isenberg School of Management at UMass Amherst, I'm pursuing a BBA in Finance and a BS in Managerial Economics. I'm passionate about financial modeling, investment research, and using data-driven insights to inform smart decision-making.

My interest in finance began during the COVID-19 pandemic, when I started independently trading stocks. What began as curiosity soon evolved into a disciplined commitment driven by research, analysis, and a desire to understand how financial systems operate. This experience inspired me to explore the broader world of capital markets, risk management, and financial strategy.

Today, I bring that same curiosity and drive to every opportunity I pursue. Whether through internships, student leadership, or academic projects, I'm focused on solving real-world problems, delivering value through analytical thinking, and growing into a professional who makes an impact in the financial sector.
